Allowable Subject Matter

2. Claims 27-36 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The status of the application will thus be claims 27-36 as allowed. Claims 27-36 as allowed encompass a peanut powder composition of 50-75% peanut powder, 2-6% cocoa powder, sugar and salt. The closest prior art teaches a plain peanut flour without the additional ingredients (see JP 74008855, DE 2409623, US 3,829,589). There is no prior art that teaches combining peanut flour with cocoa and sugar in a powdered form. The closest prior art teaches the inclusion of all of these ingredients in a peanut butter composition and a chocolate composition, being in the paste or liquid form, but no prior art teaches them together in powdered form in the weight percents as instantly claimed (see US 4,119,740 and US 5,268,192). There is no motivation to combine these references with any other prior art in order to obtain a powdered peanut flour composition. The claims as recited are not anticipated and furthermore there is no suggestion in the prior art to modify the references to obtain a peanut flour with this composition.
